Grant Title: Helping Littles through Creative Counseling

School: Reed Elementary

Grade Level(s): PK-3

Content Area: Counseling

Total Dollar Amount Requested: 428,81

1. What is the major educational need this grant addresses? Please give grade level and academic area.
Elementary Counseling is an area that gets overlooked. People believe that small children aren't affected by grownup problems around them, but anyone who works with elementary students knows they are greatly impacted by childhood traumas. My grant seeks to provide resources for social, emotional, and academic interventions targeted to grades PK-3.
2. Approximately how many pupils will be affected by this project, both directly and indirectly?
Based on this years enrollment, I anticipate approximately 400 students will be impacted. Although not all students will see the counselor on an individual basis, all students will have contact with the school counselor through the character education program.
3. Describe your grant including methods, materials and objectives. Foundation grants are intended to fund a creative teaching plan, so if equipment or materials are requested it should be clearly stated as to why these are an integral part of the plan.
The materials I am requesting are designed to meet a wide variety of needs unique to this age group. Objectives covered include social and emotional awareness, teambuilding, anti-bullying,
4. Give a time schedule of implementation.
Upon receipt of materials, items will be used in implementing strategies into the school counseling program. The school counselor meets with

individuals or groups on a daily basis, and the supplies ordered will be used effectively and consistently.

5. Detail your budget request. Include specific information about kinds of materials and equipment needed, sources of supply, and costs (including shipping and handling). If possible, list alternatives if full funding is not available.

6. What methods will be used for measuring the stated objectives, or what definite evaluation will you make to determine whether the grant was successful? (Please be specific)

The school counselor will rely on feedback from parents, teachers, and administration to assess improvement in school climate. Additionally, data involving discipline issues related to emotional problems would be used to determine success of implemented programs and to make necessary adjustments.
