1. What is the Major Educational need this grant addresses?

*As a Great Expectations Model school, Reed Elementary strives to celebrate our students and show recognition when it is earned. Students are highlighted during monthly assemblies, on our school's website, in the local newspapers as well as our annual yearbook. We were blessed with a grant for a wonderful digital camera, and after using it for a couple of years we are in need of a few additional accessories to enhance its use.*

2. Approximately how many pupils will be affected by this project, both directly and indirectly?

*There will be approximately 475 students affected by this grant.*

3. Describe your grant including methods, materials and objectives. Foundation grants are intended to fund a creative teaching plan, so if equipment or materials are requested it should be clearly stated as to why they are an integral part of the plan.

*This grant will provide an additional battery, a telephoto zoom lens for our digital camera that can be used by all staff members, as well as a Camera Gadget Bag to protect the materials. It will remain in the computer lab, to be checked out by staff members as needed for classroom/ school projects as well.*

### **OBJECTIVES:**

*To provide access to a digital camera and accessories for use at Reed Elementary School.*

4. Give a time schedule of implementation.

*The materials provided by this grant will be used on a daily basis beginning the first day of school.*

5. Detail your budget request. Include specific information about kinds of materials and equipment needed, sources of supply, and costs (including shipping and handling.) If possible list alternatives if full funding is not available.
