Submit in the format listed below.*

Date: March 24, 2016

Grant Title: Math their Way

School: Thomas Intermediate School

Grade Level(s): 4th grade

Content Area: Math

Total Dollar Amount Requested: \$1,423.49

497.89

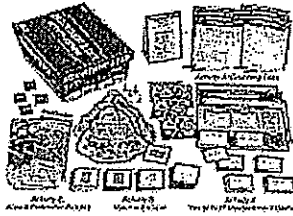

Amy
Morrison

1. What is the major educational need this grant addresses? Please give grade level and academic area.

Thomas Intermediate School strives for excellence. This is shown in the scores earned on the Oklahoma Core Curriculum Tests in reading and math. Even with such high performance in recent years there is still room for improvement. One area in which math skills need improvement is in cooperative learning groups. The curriculum that is currently used helps prepare students for the OCCT, but the curriculum is simply not enough. Teachers need more diverse learning activities that help students understand how math is used in the real world. The cooperative learning groups will give students the opportunity to master math skills.

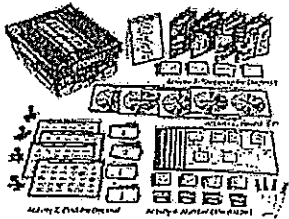

2. Approximately how many pupils will be affected by this project, both directly and indirectly?

The potential number of students who will be affected by this is unlimited. Math cooperative learning groups will allow all students access to math literacy activities that will enhance lessons for years in the future.

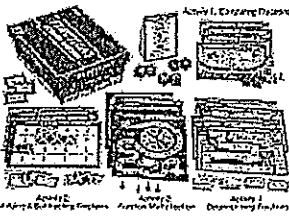

Measurement & Data Activity Station - Gr. 4-5 \$69.99 2 \$139.98
Item # PP702

Ship Item Not eligible for in-store pickup
